✓ **Why Go Solar?**

The sun is an infinite energy source to achieve energy independence in India

✓ **Environment Impact**

A Typical residential solar system is equivalent of planting over 100 trees

✓ **Return On Investment**

Solar Power Plant aren't an expense – they're one of the best ways to invest

✓ **Free Energy for 25 Years**

Generate free power for entire 25+ year life-cycle with your solar plant

Why Invesun?

InveSun's Mission for creating clean energy abundance for billion lives backed by technology innovation ensures you best in class switch to solar experience!

Premium Product

Our premium hand-picked selection of products will ensure the higher quality standard and long lasting efficiency to ensure optimum return on investment

Trained Professionals

From consultation to installation to monitoring, our trained professionals will ensure the higher quality of product delivery at your door step

100% Online Process

A fully automated online process will take care of your switch to solar dream, our sophisticated software will keep you on track with your solar system.

How solar works?

Energy from the sun is converted into electricity for your home.
Energy you don't use is credited to you as it passes through your utility meter and into the utility grid.

HOW MUCH WILL YOU **SAVE** WITH SOLAR?

₹4,25,000

is how much you will save
on energy in 25 years

With Solar

₹150

Monthly Utility
Bill

₹75,000

Bill in 25 years

Without Solar

₹1000

Monthly Utility
Bill

₹5,00,000

Bill in 25 years

40%

**Government Subsidy
Incentive upto 3 kwp
solar system**

20%

**Additional government
subsidy for 3 kwp to 10 kwp
solar system**

Net Meter

**Get setoff of your
usages with your
generation**

RECIEVE A CREDIT ON YOUR SYSTEM

The 30% federal ITC starts to phase out after Dec 31,2019.

Get solar now to take advantage of these discounts.

Finance based on electricity bill

Suggested System Size

5kWp

Area Required

400.00 sqft

Investment

Rs. 264083

Net Payable

Rs. 211266

Net Saving Per Year

Rs. 9375

EMI Starts at **Rs. 3750**

System

Investment

Rs. 264083

Incentive

Rs. 52817

Net Payable

Rs. 211266

UPTO 80% OF YOUR ELECTRIC BILL WILL SAVED FROM SOLAR

25 Years Free Energy Access

BASIC

5 kWp Grid Tie Solar Photovoltaic System

Rs. 242500

Supply & Installation of Solar Power Plant with Standard Components including Solar Panel, Grid Tie Inverter, Structure & Misc.

ADDITIONAL

Structure Modification

Rs. 32500

Supply & Installation of Solar Power Plant with Standard Components including Solar Panel, Grid Tie Inverter, Structure & Misc.

DISCOM Charges

Rs. 2950

The Additional charges asked by Discom to make necessary connection changes and Net Meter Installation at your premises

PREMIUM

Mobile Application

Rs. 999

Track your saving and system performance with mobile application

Solar Monitoring

Rs. 999

InveSun will continuously monitor your system and will respond in the unlikely event that it underperforms

Extended Package

Rs. 4995

InveSun will take care of any system outage and quarterly Preventive maintenance of your system

Insurance Coverage

Rs. 4995

Our all-inclusive system coverage protects againsts damage or theft

Basic Package

Grid Tie Solar Photovoltaic System Design, Supply and Installation of Grid Tie Photovoltaic System including Standard Supply of Solar Photovoltaic Module, Module Mounting Structure, Grid Tie Inverter, Distribution Box, Lighting Arrestor, Earthling Pit and cables.	Rs. 242500
(-) State Government Subsidy	

Add On

Structure Modification Design & Supply Solar Module Mounting Structure as per clients on site condition	Rs. 32500
