# Why Go Solar?

The sun is an infinite energy source to achieve energy independence in India

# Environment Impact

A Typical residential solar system is equivalent of planting over 100 trees

#### Return On Investment

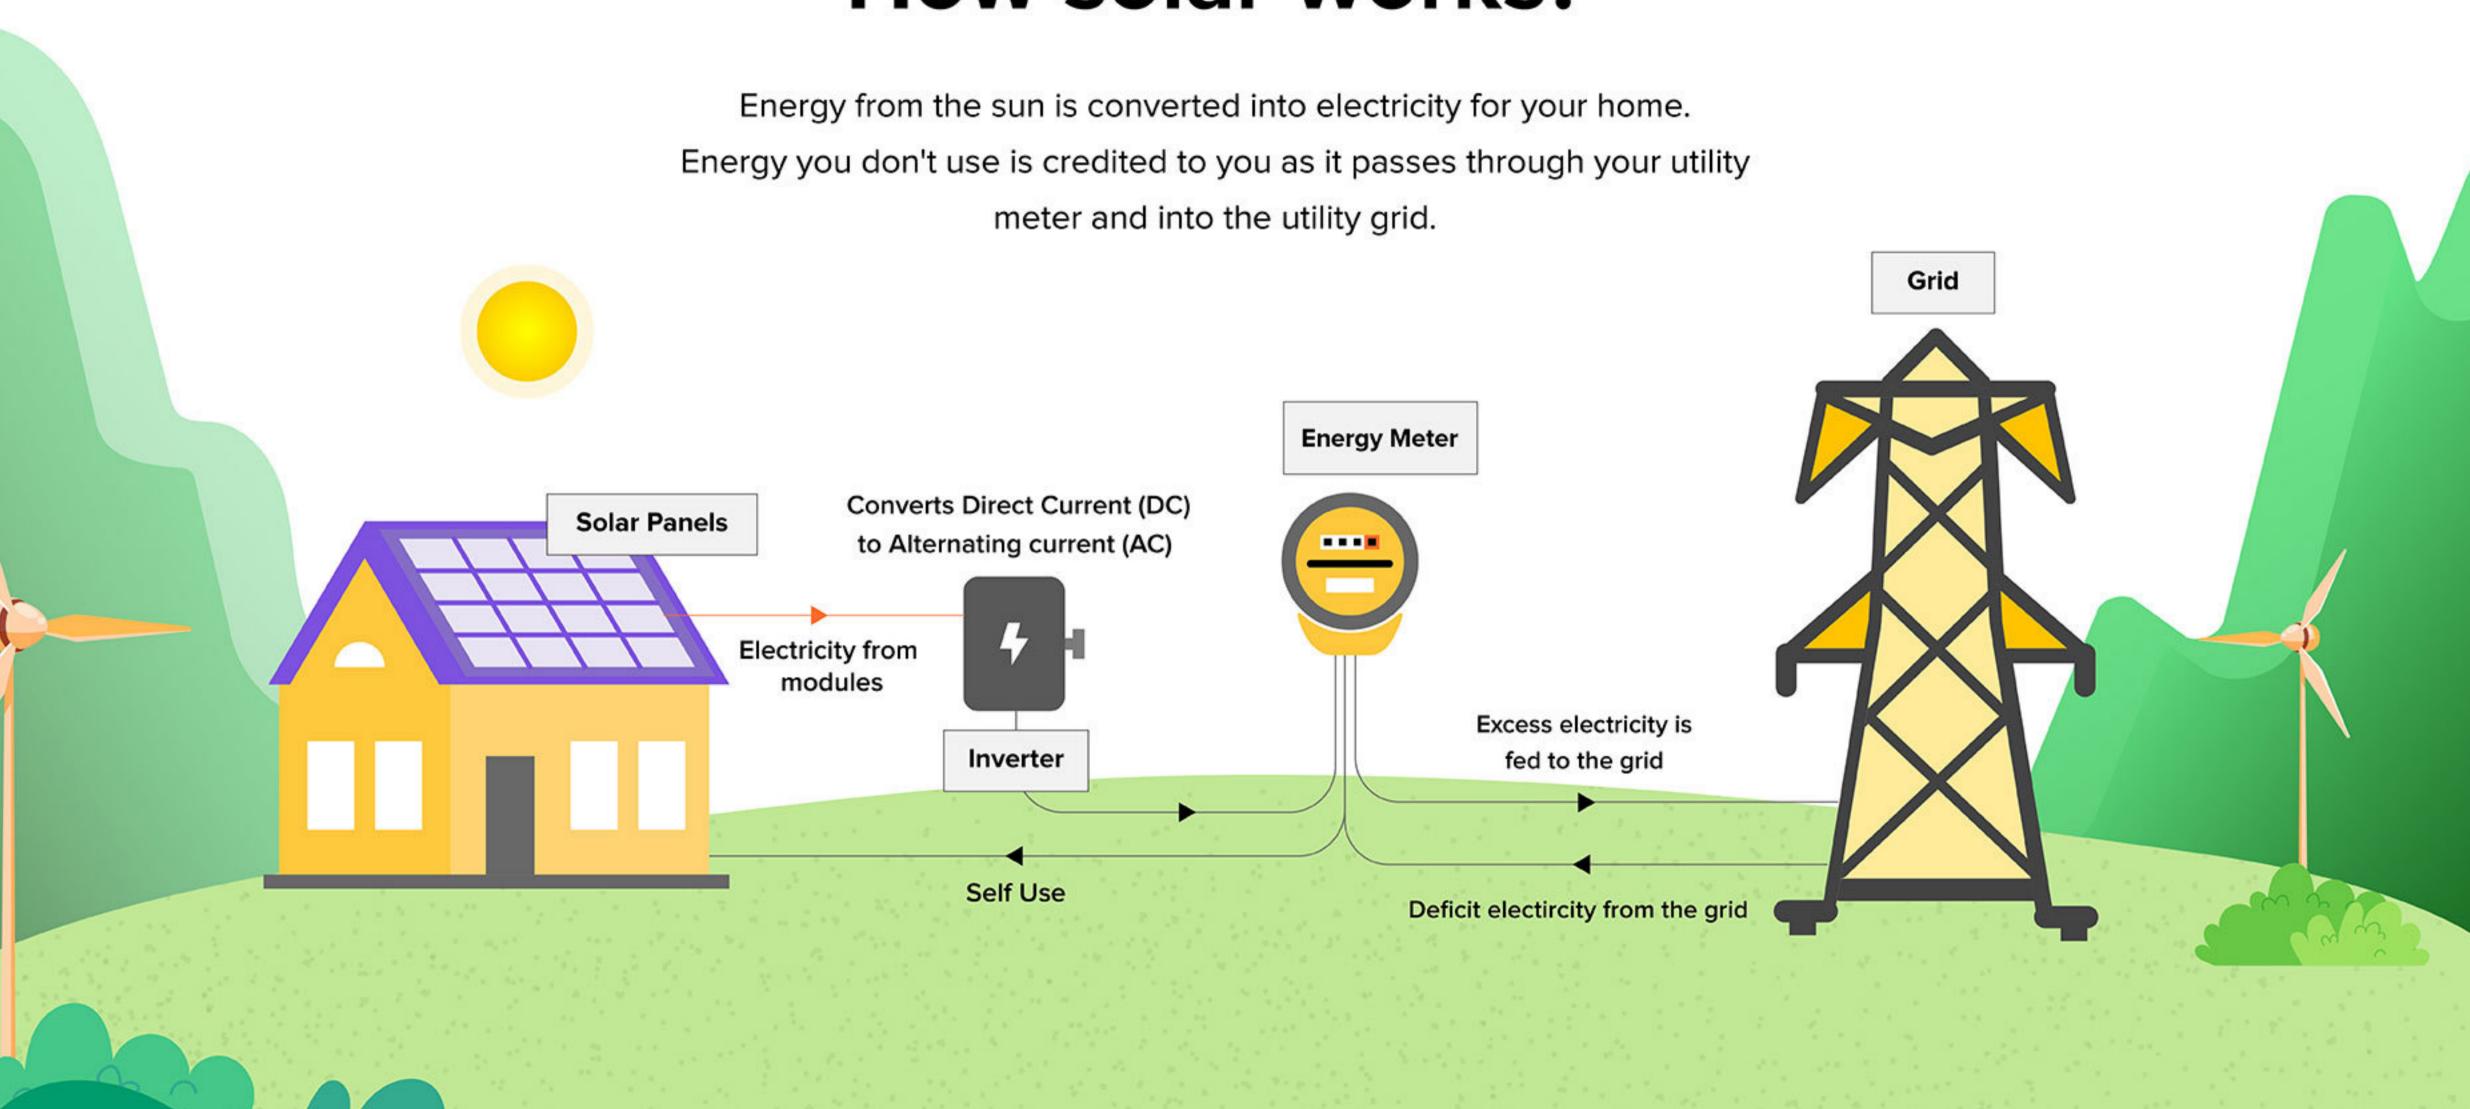

Solar Power Plant aren't an expense – they're one of the best ways to invest

# Free Energy for 25 Years

Generate free power for entire 25+ year life-cycle with your solar plant

# How solar works?

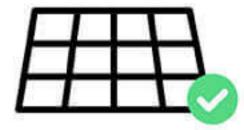

# HOW MUCH WILL YOU SAVE WITH SOLAR?

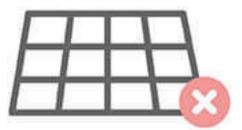

₹80,040

is how much you will save on energy in 25 years

With Solar

Without Solar

₹2000

Monthly Utility Bill

₹3000

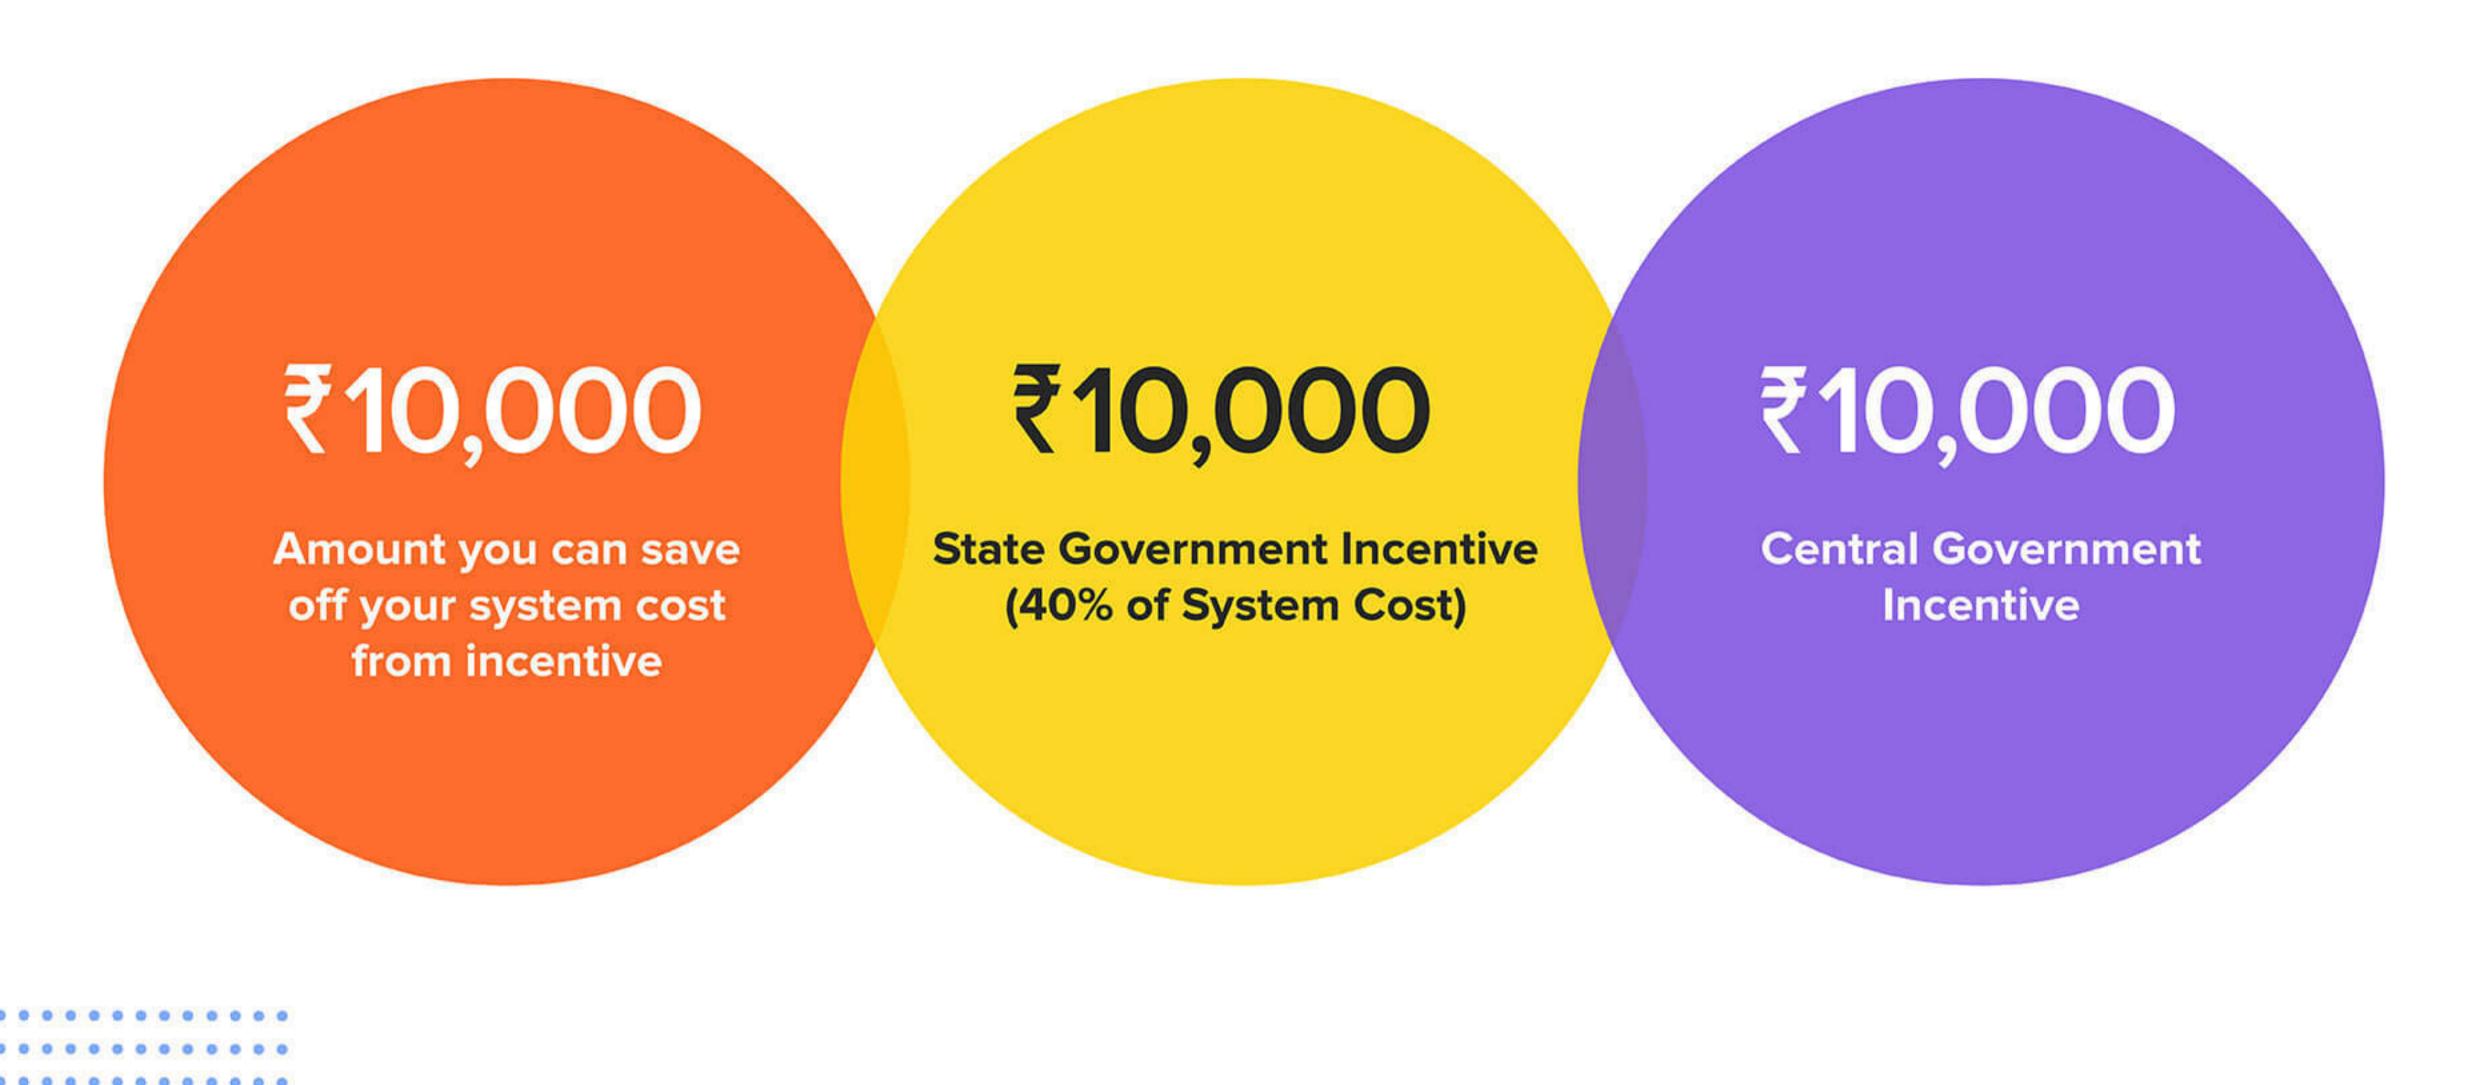

Bill in 25 years

₹2000

Monthly Utility Bill

₹3000

Bill in 25 years

#### RECIEVE A CREDIT ON YOUR SYSTEM

The 30% federal ITC starts to phase out after Dec 31,2019.

Get solar now to take advantage of these discounts.

# Finance based on electricity bill

**Suggested System Size** 

2kWp

Area Required

Investment

160.00 sqft

Rs. 105633

Net Payable

Net Saving Per Year

Rs. 63380

Rs. 104160

EMI Starts at Rs. 104160

# Why Invesun?

InveSun's Mission for creating clean energy abundance for billion lives backed by technology innovation ensures you best in class switch to solar experience!

#### **Premium Product**

Our premium hand-picked selection of products will ensure the higher quality standard and long lasting efficiency to ensure optimum return on investment

#### **Trained Professionals**

From consultation to installation to monitoring, our trained professionals will ensure the higher quality of product delivery at your door step

#### **100% Online Process**

A fully automated online process will take care of your switch to solar dream, our sophisticated software will keep you on track with your solar system.

InveSun Monitoring InveSunwill continuously monitor your system and will respond in the unlikely event that it underperforms	Rs. 999
Extended Maintenance InveSunwill take care of any system outage and quarterly Preventive maintenance of your system	Rs. 1998
To Be Borne By Customer	
DISCOM Charges	Rs. 2950
Insurance Coverage	Rs. 1998
Total Amount	Rs. 118944
Loan Option	
Processing Fees @ 2%	Rs. 1234
Down Payment @ 30%	Rs. 1234
Monthly Installment @ 18 Month	Rs. 1234

#### BASIC

# 5 kWp Grid Tie Solar Photovoltaic System

Rs. 97000

Supply & Installation of Solar Power Plant with Standard Components including Solar Panel, Grid Tie Inverter, Structure & Misc.

#### ADDITIONAL

Structure Modification

Rs. 13000

Supply & Installation of Solar
Power Plant with Standard
Components including Solar
Panel, Grid Tie Inverter,
Structure & Misc.

DISCOM Charges

Rs. 2950

The Additional charges asked by Discom to make necessary connection changes and Net Meter Installation at your premises

#### **PREMIUM**

# Mobile Application

Rs. 999

Track your saving and system performance with mobile application

. . . . . . . . . . .

## Solar Monitoring

Rs. 999

InveSun will continuously monitor your system and will respond in the unlikely event that it underperforms

# Extended Package

Rs. 1998

InveSun will take care of any system outage and quarterly Preventive maintenance of your system

## Insurance Coverage

Rs. 1998

Our all-inclusive system coverage protects againts damage or theft
